Requirement Rules

- ☛ A listing of Upper Level Physiology and Upper Level Science approved courses is on the Physiology website.
- ☛ Any substitutions that are made by an advisor **must be indicated on the appropriate** Departmental form and submitted to the Student Affairs Officer, Rm. 1022.
- ☛ A minimum grade of "C" must be achieved in all required courses.
- ☛ Anyone who takes PSYC 308 or NSCI 200 cannot take PHGY 209.
- ☛ Anyone who takes PSYC 204 or MATH 203 cannot take BIOL 373. The Department does not consider PSYC 204 and BIOL 373 to be equivalent courses. If you have taken PSYC 204 then you must take one of the other options. The Honours Immunology Program is the only exception to this requirement.
- ☛ If you have completed any of the Organic Chemistry requirements before beginning your programs, the credits are to be used as electives.
- ☛ Before making course selection verify that all pre-requisites have already been completed.
